

Modern Whig Party of America

A Party of Common Sense Solutions

If you feel that you have no say in Washington, that you can't trust politicians, or that government has become completely unresponsive to common citizens' needs, then you might be a modern Whig! We are a newly organizing party focusing on ethics, common sense solutions with a non-ideological platform encompassing both bold social progression and fiscal restraint. We aim to return the control of our Republic to its citizens and out of the hands of special interests, political parties and career politicians. The way it was meant to be.

Founded by veterans of Iraq and Afghanistan in 2007 as a reaction to partisan gridlock and lack of citizens' representation, the Modern Whig Party (MWP) has quickly attracted tens of thousands of members along with 26 state chapters. The majority of our members are disenchanted Republicans and moderate Democrats who are independent thinkers and see beyond the ruse of partisan politics. The MWP is not a party of ideologues. We are a party of centrist-minded citizens who desire responsive and intelligent government and are prepared to blaze a new trail to political participation in our Republic, preferring to focus on methods and solutions, not ideology. As such, the Washington, DC-based Modern Whig Party continues to gain traction as a viable home for moderate voters.

MWP is the "un-party" being built for the rest of us !
